## PRODUCT – LINE

### Dear Sirs,

thank you very much for your interest in our products. Our company is a german machine builder, we are a leading manufacturer and distributor of spare parts for earth moving and construction machinery.

- We manufacture all kinds of pins and bushings for many brands in all qualities.
- We deliver swing circles (repair up to 3.000 mm Ø is possible) gear wheels, pinion shafts, flanges, joint shafts and hydraulic cylinders, piston rods, tensioned spring bushings, plain bearings, washers, seals etc.
- Our products are MADE IN GERMANY and of first-class quality. Our Parts are divided into brands and listed in accordance with the numbers of the genuine (original) spare parts. All names and numbers are used for reference purposes only.
- We would like to further extend the market for our products, so if you are interested in our articles, please contact our sales department and tell us your present demand.
